

Kevin Ressegaire

Full-Stack Developer | React · TypeScript · Node.js · API REST

Full-stack developer specialized in designing and building complete web applications with React, TypeScript and Node.js. Experience on real projects delivered in production, including building REST APIs, server-side logic, database management (MySQL) and responsive user interfaces. Used to working in agile teams, using Git/GitHub and writing clean, well-documented code. Autonomous and comfortable with remote work, I am looking for a full-stack developer position to contribute to production products.
